(b) the projects are intensively monitored both physically and financially through reports and visits made by officers of the Ministry. The Ministry also organises review meetings with the Secretaries and other officials of the States concerned from time to time in order to monitor the progress made. In addition, a system of link officers has also been developed under which an officer acts as the focal point for issues concerning an individual State.

(c) These projects are a part of the larger family welfare programme that has a substantial component of domestic funding. However, achievements in the health sector generally cannot be assessed on a yearly basis. The results of these interventions are reflected in improved performance after a reasonable gap of time.
